WHO ARE WE

We are a trio of music lovers who bonded over a shared passion for the dance floor.

Five years ago we felt the underground music scene in Verbier needed a facelift. So we started Front Left with the aim of providing a unique vibe with quality sound design and great music programming while installing our own lights and decoration. We've grown from one or two events during the winter season to sell out events all year and bookings across europe.

We curate the music, bringing together a balance of house, techno, disco, Italo, broken beats and a big beat manifesto. Often playing all night long, we carefully control the energy of the room, with the exception of inviting our favourite dj friends.

Josh is our logistical, environmental and energy man. Bringing an unmatched energy to the team and whatever dancefloor he graces, he's a true music lover and keeps our spirts high.

Lucy is the music programmer at the renowned Farinet where for the last three years she has hosted the likes of Crazy P, Guts, Mungos Hifi, Demi Riquisimo, Lulah Francs, Groove Armada, Dan Shake, Paula Tape, Manami and Jive Talk. She is a force to be reckoned with and with taste like that, you can trust she has a bag of weapons.

Finally, **Dean** is our in-house self-proclaimed sound engineer, light and tech guy. He has an unhealthy obsession for digging and programming the best sound for our parties. With his ever-growing vinyl collection, a touch of producing and his big smile you are in good hands when it's his turn to pick the tunes.

TESTIMONIALS

James Colby

Co Owner - Rabbit Hutch

"We booked Front Left to play at our bar as a one off night during the season to ‘test the water’. Not only was the evening a huge success, but probably the best one we’ve had. The music was spot on for the room, and the ambience was perfect. The following that Front Left has is fantastic and the event in itself was flawless. We can’t wait to book them in again!"

William King

Operations Manager - KV Hotels - Ice Cube

"Front Left has hosted their festival at Ice Cube for the third year in a row now, and they continue to exceed our expectations. The venue was packed and the perfect weather combined with Front Left's amazing ability to set the perfect vibe and ambience made for an unforgettable day. We've worked with Front Left on multiple occasions, and they always deliver with outstanding energy and passion.

Tom Harrison

Co Owner - Cuisine 22

"Their solo styles are contrasting but together it’s a symbiotic relationship, that its easy to see they love. Jazzy, funky and well organised sets. I’ve personally witnessed the time that they spend creating set lists in my restaurant and they are relentless in their programming. Front Left bring the decoration, the animation and vibes, I or anyone else would ever lust for.

Emma Carr

Front Left No.1 Fan

“I like a big night in, but I make an exception for Front Left. It’s a BIG night out”
